**ANNOUNCEMENT OF INTERIM RESULTS FOR
THE SIX MONTHS ENDED 30 SEPTEMBER 2019**

Characteristics of GEM of The Stock Exchange of Hong Kong Limited (the “Stock Exchange”)

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

This announcement, for which the directors (the “Directors”) of Ocean One Holding Ltd. (the “Company”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM (the “GEM Listing Rules”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief the information contained in this announcement is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this announcement misleading.

HIGHLIGHTS

- The Group recorded revenue of approximately HK\$168.4 million for the six months ended 30 September 2019, representing an increase of approximately HK\$4.6 million or 2.8% as compared to the six months ended 30 September 2018.
- The Group recorded a net profit attributable to the owners of the Company of approximately HK\$8.0 million for the six months ended 30 September 2019, representing a decrease of approximately HK\$5.2 million as compared to the Group's net profit of approximately HK\$13.2 million for the six months ended 30 September 2018. The decrease was mainly due to the expenses incurred for the proposed transfer of listing, and the increases in selling and distribution costs and administrative expenses during the period.
- The Board does not recommend the payment of dividend for the six months ended 30 September 2019.

The Board of Directors (the “Board”) of the Company is pleased to announce the unaudited condensed consolidated interim results of the Company and its subsidiaries (collectively referred to as the “Group”) for the three months and six months ended 30 September 2019, together with the respective unaudited comparative figures for the corresponding period in 2018, as follows:

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

FOR THE SIX MONTHS ENDED 30 SEPTEMBER 2019

1. GENERAL

The Company was incorporated in the Cayman Islands as an exempted company with limited liability under the Companies Law, Cap 22 (Law 3 of 1961, as consolidated and revised) of the Cayman Islands. The Company acts as an investment holding company and its subsidiaries are principally engaged in importing and wholesaling of frozen seafood products and property holding. The Company's immediate and ultimate holding company is Karlson Holding Limited which was incorporated in the British Virgin Islands and controlled by Mr. Chan Kin Fung ("Mr. Chan").

The condensed consolidated financial statements are presented in Hong Kong dollars ("HK\$"), which is the functional currency of the Company.

2. BASIS OF PREPARATION

The condensed consolidated financial statements have been prepared in accordance with Hong Kong Accounting Standard 34 "Interim Financial Reporting" issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA") as well as with the applicable disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited.

The principal accounting policies applied in preparing this condensed consolidated financial statements are set out in note 3.

3. PRINCIPAL ACCOUNTING POLICIES

The condensed consolidated financial statements have been prepared on the historical cost basis.

The amounts included in this condensed consolidated financial statements have been computed in accordance with HKFRSs issued by the HKICPA applicable to interim periods. However, it does not contain sufficient information to constitute an interim financial report as defined in HKFRSs.

Other than changes in accounting policies resulting from application of new and amendments to HKFRSs, the accounting policies and methods of computation used in the condensed consolidated financial statements for the six months ended 30 September 2019 are the same as those followed in the preparation of the Group's annual financial statements for the year ended 31 March 2019.

Application of new and amendments to HKFRSs

In the current interim period, the Group has applied, for the first time, the following new and amendments to HKFRSs which are mandatory effective for the annual period beginning on or after 1 January 2019 for the preparation of the Group's condensed consolidated financial statements:

HKFRS 16	Leases
HK(IFRIC) — Int 23	Uncertainty over Income Tax Treatments
Amendments to HKFRSs	Annual Improvements to HKFRSs 2015–2017 Cycle
Amendments to HKFRS 9	Prepayment Features with Negative Compensation
Amendments to HKAS 19	Plan Amendment, Curtailment or Settlement
Amendments to HKAS 28	Long-term Interests in Associates and Joint Ventures

Except as described below, the application of the new and amendments to HKFRSs in the current period has had no material impact on the Group's financial performance and positions for the current and prior periods and/or on the disclosures set out in the condensed consolidated financial statements.

Impacts and changes in accounting policies of application on HKFRS 16 “Leases”

The Group has applied HKFRS 16 for the first time in the current interim period. HKFRS 16 superseded HKAS 17 “Leases” and the related interpretations.

Key changes in accounting policies resulting from application of HKFRS 16

The Group applied the following accounting policies in accordance with the transition provisions of HKFRS 16.

Definition of a lease

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

For contracts entered into or modified on or after the date of initial application, the Group assesses whether a contract is or contains a lease based on the definition under HKFRS 16 at inception or modification date. Such contract will not be reassessed unless the terms and conditions of the contract are subsequently changed.

As a lessee

Allocation of consideration to components of a contract

For a contract that contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Group also applies practical expedient not to separate non-lease components from lease component, and instead account for the lease component and any associated non-lease components as a single lease component.

Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option. It also applies the recognition exemption for lease of low-value assets.

Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

Right-of-use assets

Except for short-term leases and leases of low value assets, the Group recognises right-of-use assets at the commencement date of the lease (i.e. the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities.

The cost of right-of-use asset includes:

- the amount of the initial measurement of the lease liability;
- any lease payments made at or before the commencement date, less any lease incentives received;
- any initial direct costs incurred by the Group; and
- an estimate of costs to be incurred by the Group in dismantling and removing the underlying assets, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

Right-of-use assets in which the Group is reasonably certain to obtain ownership of the underlying leased assets at the end of the lease term is depreciated from commencement date to the end of the useful life. Otherwise, right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term.

The Group presents right-of-use assets as a separate line item on the condensed consolidated statement of financial position.

Leasehold land and building

For payments of a property interest which includes both leasehold land and building elements, the entire property is presented as property, plant and equipment of the Group when the payments cannot be allocated reliably between the leasehold land and building elements.

Lease liabilities

At the commencement date of a lease, the Group recognises and measures the lease liability at the present value of lease payments that are unpaid at that date. In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

The lease payments include:

- fixed payments (including in-substance fixed payments) less any lease incentives receivable;
- variable lease payments that depend on an index or a rate;
- amounts expected to be paid under residual value guarantees;
- the exercise price of a purchase option reasonably certain to be exercised by the Group; and
- payments of penalties for terminating a lease, if the lease term reflects the Group exercising the option to terminate.

Variable lease payments that reflect changes in market rental rates are initially measured using the market rental rates as at the commencement date. Variable lease payments that do not depend on an index or a rate are not included in the measurement of lease liabilities and right-of-use assets, and are recognised as expense in the period on which the event or condition that triggers the payment occurs.

After the commencement date, lease liabilities are adjusted by interest accretion and lease payments.

The Group remeasures lease liabilities (and makes a corresponding adjustment to the related right-of-use assets) whenever:

- the lease term has changed or there is a change in the assessment of exercise of a purchase option, in which case the related lease liability is remeasured by discounting the revised lease payments using a revised discount rate at the date of reassessment.
- the lease payments change due to changes in market rental rates following a market rent review/ expected payment under a guaranteed residual value, in which cases the related lease liability is remeasured by discounting the revised lease payments using the initial discount rate.

As a lessor

Allocation of consideration to components of a contract

Effective on 1 April 2019, the Group applies HKFRS 15 “Revenue from Contracts with Customers” to allocate consideration in a contract to lease and non-lease components. Non-lease components are separated from lease component on the basis of their relative stand-alone selling prices.

Transition and summary of effects arising from initial application of HKFRS 16

Definition of a lease

The Group has elected the practical expedient to apply HKFRS 16 to contracts that were previously identified as leases applying HKAS 17 and HK(IFRIC)-Int 4 “Determining whether an Arrangement contains a Lease” and not apply this standard to contracts that were not previously identified as containing a lease. Therefore, the Group has not reassessed contracts which already existed prior to the date of initial application.

For contracts entered into or modified on or after 1 April 2019, the Group applies the definition of a lease in accordance with the requirements set out in HKFRS 16 in assessing whether a contract contains a lease. The application of new definition of a lease does not have material impact on the condensed consolidated financial statements.

As a lessee

The Group has applied HKFRS 16 retrospectively with the cumulative effect recognised at the date of initial application, 1 April 2019. Any difference at the date of initial application is recognised in the opening accumulated profits and comparative information has not been restated.

When applying the modified retrospective approach under HKFRS 16 at transition, the Group applied the practical expedients to leases previously classified as operating leases under HKAS 17, on lease-by-lease basis, to the extent relevant to the respective lease contracts, elected not to recognise right-of-use assets and lease liabilities for leases with lease term ends within 12 months of the date of initial application. As all of the Group’s leases will end within 12 months from 1 April 2019, no right-of-use assets and leases liabilities are recognised on 1 April 2019.

In relation to asset previously under a finance lease, as the asset was fully depreciated in prior year, no recategorisation of right-of use asset has been made in the condensed consolidated financial statements as at 1 April 2019. However, the Group reclassified the lease liability/obligation under a finance lease of HK\$119,000 and HK\$90,000 to lease liability as current and non-current liabilities respectively at 1 April 2019.

For the purpose of reporting cash flows from operating activities under indirect method for the six months ended 30 September 2019, movements in working capital have been computed based on opening statement of financial position as at 1 April 2019 as disclosed above.

As a lessor

In accordance with the transitional provisions in HKFRS 16, the Group is not required to make any adjustment on transition for leases in which the Group is a lessor but account for these leases in accordance with HKFRS 16 from the date of initial application and comparative information has not been restated.

Before application of HKFRS 16, refundable rental deposits received were considered as rights and obligations under leases to which HKAS 17 applied. Based on the definition of lease payments under HKFRS 16, such deposits are not payments relating to the right-of-use assets and should be adjusted to reflect the discounting effect at transition. However, as the rental deposits received are insignificant, no adjustment has been made in the condensed consolidated financial statements.

Effective on 1 January 2019, the Group has applied HKFRS 15 to allocate consideration in the contract to each lease and non-lease components. The change in allocation basis has had no material impact on the condensed consolidated financial statements.

The application of HKFRS 16 has had no material impact as a lessor on the condensed consolidated financial statements for the six months ended 30 September 2019.

4. REVENUE AND SEGMENT INFORMATION

Revenue represents amounts received or receivable from trading of frozen seafood products. Revenue is recognised when control of the goods has transferred, being when the goods have been shipped to the customer's specified location. Following delivery, the customer has full discretion over the manner of distribution and price to sell the goods and bears the risks of obsolescence and loss in relation to the goods.

The Group's operating activities are attributable to a single operating segment focusing on importing and wholesaling of frozen seafood products. This operating segment has been identified on the basis of internal management reports prepared in accordance with accounting policies conform to HKFRSs that are regularly reviewed by the executive directors of the Company, the chief operating decision maker ("CODM"). The CODM reviews the results of the Group as a whole in order to assess financial performance and allocation of resources. Accordingly, the operation of the Group constitutes only one single operating segment. Other than entity wide information, no further analysis of this single segment is presented.

The disaggregated information of revenue is as follows:

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

The Group is an established frozen seafood importer and wholesaler in Hong Kong with over 17 years of experience in the frozen seafood import and wholesale industry. It supplies a diverse and wide range of frozen seafood products with more than 100 product varieties to over 310 customers which are mainly frozen seafood resellers and frozen seafood catering service providers.

For the six months ended 30 September 2019, the Group recorded a net profit of approximately HK\$8.0 million as compared to a net profit of approximately HK\$13.2 million for the six months ended 30 September 2018. Set aside the expenses incurred for the proposed transfer of listing, the Group's net profit for the six months ended 30 September 2019 would be HK\$10.9 million. The Directors are of the view that the decrease in net profit was mainly due to the increases in selling and distribution costs and administrative expenses during the period. In view of the continuation of net profit generated for the six months ended 30 September 2019 despite the current sluggish economy in Hong Kong, the Directors are cautiously optimistic on the Group's business outlook.

OUTLOOK

The Directors believe that since the successful listing on GEM of the Stock Exchange on 19 October 2017 (the "Listing"), it enhances the Group's profile and further strengthens the Group's reputation in the industry, which in turn helps maintaining the business relationship with the existing suppliers and customers, and exploring potential business opportunities with new suppliers and customers.

The net proceeds from the Share Offer (as defined in the Prospectus) have been providing financial resources to the Group to meet and achieve its business opportunities and strategies which will further strengthen the Group's market position in the frozen seafood import and wholesale industry in Hong Kong.

The Group has obtained sale agency arrangements with a number of new foreign suppliers since its Listing, and will continue to pursue for additional exclusive agency or sale agency arrangements with existing and new foreign suppliers to further enrich our product portfolio and to maintain our competitiveness by carrying a broader product portfolio. The Group shall continue to strive and achieve the business objectives as stated in the prospectus issued by the Company dated 29 September 2017 ("Prospectus").

The Group's revenue increased by approximately 2.8% from approximately HK\$163.8 million for the six months ended 30 September 2018 to approximately HK\$168.4 million for the six months ended 30 September 2019, primarily attributable to the increase in sales of products such as frozen crab flavored fish cake, roasted eel, salmon belly and smoked salmon, but partially offset with the decrease in sales of products such as giant squid fillets and various prawns products.
